

Curriculum Vitae (C.V)

First Name: Reza

Last Name: Vazirinejad

Date of Birth: Sept.23th 1965

Affiliation: Professor, Social Determinants of Health Research Centre, Medical School, Rafsanjan University of Medical Science, Rafsanjan, Iran.

Tel: 0098 913 292 11 47

Cell: 0098 3434280086

Address: Rafsanjan - Imam Ali Boulevard - Central Organization

E-mail: rvazirinejad@yahoo.co.uk

Education

Degree	Major	Institution	Year
B. Sc.	Public Health,	Tehran University of Medical Sciences, School of Health, Tehran, Iran.	1989
M. Sc.	Epidemiology	Shiraz University of Medical Sciences, School of Medicine, Shiraz, Iran.	1993

Ph. D.	Epidemiology	Nottingham University, Medical School, Nottingham, UK.	2003
--------	--------------	--	------

Thesis title: a community-based survey on Quality of life and participation among Multiple Sclerosis patients.

Research Interest:

- Descriptive, analytical, and Experimental, epidemiological studies.
- primary preventive measures
- screening approaches
- secondary prevention
- clinical epidemiology
- all Epidemiological aspects of communicable and non-communicable diseases

Research Projects:

The effectiveness of psycho- educational intervention on the quality of life, participation, mental health, fatigue, and some immunological and euroendocrinologic factors in patients with multiple.

- Comparing Traditional and Online Methods for assessing educational quality of lecturers from Students and lecturers Points or View.
- Evaluation of pulmonary volumes and respiratory indicators in hospitalized patients with Covid 19 to one year after discharge in City of Kerman.
- The prevalence of novel coronavirus infection (COVID 19) in Rafsanjan, Iran (2020).
- Studying the patterns of transmission and related indices of the novel coronavirus infection (COVID 19) in Rafsanjan (2020).
- the Association between the immune response rate hepatitis B vaccine and the body mass index: A Clinical Trial.
- Assessment of correlation between Sleep Quality and Depression in Patients with Stroke Referred to Neurology Clinic of Ali Ibn Abi Talib Hospital in Rafsanjan in 2020.
- Validity and Reliability of Persian Version of Impact on participation and autonomy (IPA-p) among Patients with Stroke referring to Health Clinic in rafsanjan (iran. 2019-20).
- Survey of the prevalence of drug abuse and psychiatric abuse in students of Vali-e-Asr University of Rafsanjan, 2019.
- The barriers and challenges of family physician program in Iran: A mixed-methods systematic review.
- The Correlation between duration and the method of using the smartphones and the learning conception of medical students in Rafsanjan University of Medical Sciences in 2018.
- Study of the impact of depression in the last three months of pregnancy on exclusive breastfeeding in the first six months of infant's life.
- Study of incidence rate,spatial and temporal patterns of tuberculosis disease in Kerman province during 2011-2016.
- The relationship between consumption of opium and gastrointestinal cancer: A casecontrol study.
- The Relationship between Fast-food consumption and NAFLD in adults: a case-control study.
- Validity and Reliability of Persian Version of Impact on participation and autonomy (IPA-p) among Patients with Rheumatoid Arthritis Rrffiring to Health Clinicin rafsanjan (iran. 2016-17).
- Evaluation of Validity and Reliability of Impact on Participation and Autonomy_persian in Positive Angiography Patientes in Rafsanjan Ali-ebn-Abitaleb Hospital in 2017.
- Evaluating the Correlation between frequency of cardiovascular and respiratory deaths with solar activities in Kerman 2010-2015.

- The survey between Rate of excitement seeking and substance abuse withdrawal among patients dependent to heroin, in addiction centers ,Affiliated to Rafsanjan University of Medical Sciences in 2014.
- The Effects of Weather on Frequency of Hospitalization for Cardiovascular and Respiratory, Ali Ibn Abi Talib (As) Hospital in Rafsanjan Between 2009 to 2012.
- The effect of exposing to pistachio pesticides on stillbirth among pregnant women in Rafsanjan.
- The survey on prevalence of exclusive breast feeding and its related factors among infants under 6 months age referring to health centers in Rafsanjan, 2012 – 2013.
- One year in cident rate of domestic accidents of families in rural areus of rafsanjan 2012.
- Effect of Quran verses on the type of delivery in women admitted to Niknafs maternity in Rafsanjan.
- Evaluation of vitamin D effects on immunological factors of multiple sclerosis patients with vitamin D deficiency.
- The study of prevalance of undernutrition and releated key factors affecting nutrition status of 6-24 month infants in rural area of Rafsanjan in 2011.
- Investigating the hygienic status and risk assessment of aflatoxin contamination in pistachios consumed in Kerman province.
- Investigating the status of social health and self-esteem of women heads of empowered and non-empowered households covered by the welfare of Rafsanjan city,2022.
- Investigating the relationship between spiritual experiences and spiritual health with the intention to leave the job and burnout of employees of Rafsanjan University of Medical Sciences in the period after the epidemic of COVID-19 disease in 2021.
- Investigating the relationship between Spiritual health and attitude to spirituality with the quality of nursing care in the nurses of Rafsanjan hospitals in the period after the epidemic of the disease COVID 19 in 2022.
- Evaluation of liver enzymes in women with Poly Cystic Ovary Syndrome (PCOS) based on Body mass index and comparison with healthy women referring to Afzalipour infertility clinic in 2022.
- The assessment of self-esteem of Systemic Lupus Erythematosus, (SLE) patients referred to the rhomathology clinic of Rafsanjan in 2022.
- Examining the causes of divorce in the family court of Rafsanjan in the years 2022.
- Evaluation and comparison of IQ and psychological profile of children born after assisted reproductive techniques compared with natural conception in Kerman province.
- Sleeping pattern and cardiovascular disease risk in Sarcheshmeh Copper complex staffs: a study based on Cohort employees data.
- Prevalence and incidence of fatty liver disease and related risk factors in Sarcheshmeh Copper Complex staffs: A cross-sectional study based on cohort data of copper employees.

- plasma levels of interleukin-10, interferon γ , ESR and CRP in patients with arthritis rheumatoid and opium users.
- Prevalence of Alzheimer's disease in the elderly population of Rafsanjan in 1400.
- Investigating the trend of mortality of children under 5 years old and the economic and health status of their families during 1390-1399 in Rafsanjan city.
- Correlation Evaluation of Suicide Rates and Indicators of Peace, Life Expectancy, Human Development and Gender Equality 2016 in 144 countries: An Ecological Study.
- Survey nutrition and length of hospitalization and some of its consequences in COVID19 patients of Ali Ebn Abitaleb Hospital of Rafsanjan in 2020.
- Comparison of BMI and some physical parameters of Rafsanjan students before and after 1 year from beginning of corona.
- Investigation the Characteristics and Clinical Outcomes in Iranian and Afghan Patients with Covid-19 in the second half of 1399 year in Rafsanjan.
- Characteristics and Clinical Outcomes among Afghan Patients and Iran Patients with Covid-19.
- The Relationship between accompanying midwife counseling and type of delivery due to the mediating role of anxiety, stress and depression in nulliparous women in Nik Nafs Hospital in Rafsanjan in 2020.
- Comparison of clinical, paraclinical And demographic factors among suspected COVID19 patients and PCR positive patients referred to Ali Ibn Abi Talib Medical Training Center of Rafsanjan University of Medical Sciences in 2020.
- Evaluation the relationship between heredity and fetal death according to the role of equalizer maternal age in referred to Nik Nafs Hospital in Rafsanjan in the years 2014 to 2019.
- Predicting the spread trend of infected and deaths due to 2019-nCov in Rafsanjan in 2020.
- Evaluation of Prevalence of Coronavirus (COVID-19) and its Related Mortality to Chronic Disease in People Referred to Education, medical and Health Centers in Rafsanjan in years 2019 and 2020.
- Review of Clinical and Epidemiologic Characteristics of Patients with Suspected and Detected New Coronavirus (2019-nCoV) in Rafsanjan, 2020.
- Evaluation of the effectiveness of mindfulness-based education method on Test anxiety, stress and depression of 12th year high school students referred to Ghalamchi Center in Rafsanjan: 2022.
- The effect of date palm pollen on sexual dysfunction in menopausal women affiliated by Comprehensive Health Services Centers in Rafsanjan ,2020.
- The relationship between sexual satisfaction and intimacy with using pornography in fathers of Rafsanjan city, 2020.
- The relationship between sexual desire and marital satisfaction with using pornography in mothers of Rafsanjan city, 2020.

- Evaluation of Accuracy rate of antibiotic prescription before appendectomy with and without complication in Ali bin Abi Talib hospital in Rafsanjan in comparison with national standard guidelines in 2018.
- Epidemiologic study of mortality rate of patients referred to Hazrat Ali bin Abi Talib Hospital in Rafsanjan Since March to September, 2019.
- Determining the factors affecting suicide in the patients referred to the emergency department of Ali bin Abitaleb Hospital in Rafsanjan in year 2019.
- Investigation of communication apprehension and fear of physician among the Afghan women referring to the Payambar Azam health center at Rafsanjan University of medical sciences in 2019.
- A comparative study on the effect of vaginal misoprostol Usage with the combination of Evening primroses and vaginal misoprostol in the treatment of missed abortions in women referring to Nik Nafs Hospital in Rafsanjan, 2019.
- Investigating the effect of date palm pollen on menopausal symptoms in women affiliated by Comprehensive Health Services Centers in Rafsanjan , 2019.
- Evaluation of N-Acetylcysteine effect on lipid accumulation and metabolism and the expression some pathway apoptotic genes in vitro model of fatty liver.
- A survey on the frequency of suicide news published in newspapers and national news agencies in Iran in the year of 2018 -2019 and its concordance with the suicide news publishing guideline in the media.
- Determining of Important Messages for a Suicide Prevention Media Campaigns According to Experts in Iran at 2018-2019: A Delphy Study.
- Maternal Risk factors influencing on Low Birth Weight in Rafsanjan township: A Case Control Study.
- A survey on Musculoskeletal Condition and quality of life in faculty members of Rafsanjan University of medical sciences of Iran in 2019.
- Evaluation of liver enzymes in women with Poly Cystic Ovary Syndrome (PCOS) based on Body mass index and comparison with healthy women referring to Afzalipour infertility clinic in 2022.
- Determining of Important Messages for a Suicide Prevention Media Campaigns According to Experts in Iran at 2018-2019: A Delphy Study.
- The effect of foot reflexology massage on sleep quality in hemodialysis patients referring to Rafsanjan Ali ibn Abitaleb Hospital: 2019.
- Comparison of the effect of general and spinal anesthesia on hemodynamic status and pain intensity in women candidates for elective cesarean section.
- Health promotion behaviors and Self-efficacy of Health Practice in patients with ischemic stroke admitted to the neurology department of Rafsanjan Ali-ibn Abitaleb Hospital from March to September 2019.

- The effect of topical Pistacia vera oil on clinical signs and symptom of knee joint osteoarthritis: a randomized and double blind clinical trial.
- Comparison the effect of fluoxetine and tamoxifen on the mastalgia.
- Prevalence and risk factors for preterm birth in rafsanjan ,iran ,2017.
- Study the effect of type of delivery on preschool children weight: a case-control study.
- The effect of weight-loss on testosterone, sexual function and sexual desire of overweight and obese men referred to diet clinic of Rafsanjan University of medical sciences from September 2018 to March 2019.
- The geographical epidemiological study of suicide and attempting suicide and related social and economic factors in the townships covered by Mazandaran University of Medical Sciences during 2012-2017.
- A survey on the survival rate of patients with colorectal cancer in Kerman province during 2007-2016.
- anthropometric indices and prevalence of cardiovascular disease risk factors in a representative sample of Children and Adolescents 10-18 old in Rafsanjan City, 2018.
- Prevalence of hearing loss in patients with type 2 diabetes mellitus referred to diabetes clinic in Aliebn-Abitaleb hospital of Rafsanjan in 2018-2019.
- Prevalence and risk factors for low birth weight in Rafsanjan, Iran ; 2017.
- Assessment of Quality of health care services provided in health care centers of rafsanjan using SERVQUAL model in 2017.
- A Epidemiology survey of suicide attempts in a referral to the emergency department of Ali Ibn Abitaleb Rafanjan in 2016.
- The study of grapevine sap, on wnt and beta catenin genes expression and vascular density on the hair follicle in male rat.
- study of the effect of topical grapevine sap on apoptosis of hair follicle cells in male rats.
- Estimate the proportions of student who have risky behaviors among Rafsanjan University of Medical Sciences students in 2017 using direct and network scale up method.
- Life expectancy and average years of life lost in HIV patients covered the counseling center for behavioral disease in banda abbas.
- Evaluation the correlation between maternal iron deficiency anemia and the neonatal anthropometric index in pregnant women referred to Rafsanjan Nknafs hospital for delivery in 2016-2017.
- Environmental and Life Style Factors in Cancer Patients.
- a survey on admission and mortality rates from coronary heart diseases on holidays and non holidays in Rafsanjan Ali Ebn Abitaleb hospital during 2009-2014.
- Comparison on quality of life and it's association with social support and violence in

women with HIV in the Shraz and Rafsanjan at 2014-2015.

- Comparison of acupressure points HE_7 with a third eye on anxiety in patients undergoing coronary angiography at Ali ebne-Abitaleb hospital in Rafsanjan.
- Geographical epidemiology of suicide and attempted suicide and related socio-economic determinants in the counties under the supervision of Shiraz University of Medical Sciences from 2009 to 2012.
- Evaluation of the process and services of the pre-hospital emergency (115) in Rafsanjan University of Medical Sciences from 2003 to 2013.
- A survey to assess the effect of integrated care and healthy lifestyle education on quality of life of elderly people (Rafsanjan city. Iran).
- Comparison between Antimicrobial effects of Matrica and Chlorehexidine mouthwashes with Sodium hypochlorite on Enterococcus faecalis and candida albicans : An in vitro study.
- The effect of exposing to pistachio pesticides on spontaneous abortion among pregnant women in Rafsanjan.
- Study of the relationship between maternal exposure to ambient temperature and the risk of preterm birth.
- Time management among rafsanjan university of medical Sciences managers and training employees.
- Evaluation of the prevalence of musculoskeletal disorders in employees of administrative systems of the Rafsanjan University of Medical Sciences in 2012.
- Role of intra-accumbal cannabinoid receptors in the acquisition and expression of morphine-induced conditioned place preference in the rats.
- Effect of directly delayed brain hypothermia on late therapy of cerebral ischemia with recombinant tissue plasminogen activator (r-tPA) in model of embolic stroke rat.
- Assessment of the impact of routine medical therapy on the expression of CXC chemokines in stroke patients at the level of mRNA and protein.
- The effect of university environment on anthropometric indices (BMI & BIA) among medical students (enterances 2012, end of first & second trimesters).
- Effect of the aqueous extract of Achillea millefolium on tactile learning in male mice.
- The survey on risk factors of the musculoskeletal and joint pains of computer employment users in Rafsanjan city in the years 2012-13.
- The frequency of positive HBsAg in the serum of pregnant women attending an educational center Nick nafs of Rafsanjan University of Medical Sciences in the Year 2011.
- Rafsanjan University of Medical Sciences of the faculty members correlation in research work.
- Comparison of mental health in Preservation of the Quran and non Preservation of the Quran in rafsanjan city , 1390.

- Survey of cardiovascular system in the Holy Qura'n.
- Examination of Herbal drug and fruit in the Holy Qura'n.
- Genetics from the perspective of the Qur'an.
- Assessment of the rate of correlation between HCV viral load clinical course and HBV coinfection in multi-transfused patients of Kerman Province Real Time –PCR based analysis.
- Comparative effects of Inhibition and Overexpression of Oct-4B1 in gene expression profile of genes influences the cell pathway Stress and some cell parameters in Brain (U87MG), bladder (5637) and gastric (AGS) Tumor Cell Lines.
- Effect of hydro-alcoholic extract of Teucrium Polium, Descurainia Sophia and Artemisia aucheri on castor oil-induced diarrhea in male rat.
- Analysis PTEN gene mutation and evaluation of its importance in progression and prognosis of oesophageal squamous cell carcinomas.
- The Effects of Allium Hirtifolium Extract on Serum Adiponectin Level, Adiponectin Gene Expression and Insulin Resistance in Normal and with streptozotocin-nicotinamide induced type 2 diabetes Rats.
- Effect of agonist(capsaicin) and antagonist (AMG9810) TRPV1 receptor on stroke outcome and gene expression of Toll-like receptors in the permanent middle cerebral artery occlusion.
- The effect of exercise preconditioning on TRPV1 receptors following induction of transient global cerebral ischemia in rats.
- The effect of exercise preconditioning on neuronal function (behavioural indices and inflammation) following induction of transient global cerebral ischemia in rats.
- effect of vitex Agnus Castus on memory and learning of ovariectomized female rats.
- Study of the effects of walnut leaf Consumption on Gene Expression of Hepatic Glucokinase, glycogen phosphorylase and phosphoenolpyruvate carboxykinase in Normal and type 1 Diabetic Rats.
- Comparison of Low Power Laser and %1 Hydrocortisone phonophoresis in treatment of the knee joint osteoarthritis in 10 sessions.
- Effect of tactile learning on serum levels of IL-17 in male rats.
- Effect of chronic morphine treatment on tactile learning in rat.
- The survey of life expectancy between men & women in the city of rafsanjan.1389.
- Study of the effects of walnut leaf on the levels of a number of Blood Biochemical Factors in diabetic male rats.
- Assessment of expression of angiogenesis effective cxc chemokines CXCL10 (IP-10), CXCL1(Gro), CXCL12(SDF-1) and CXCL9(Mig) in Adult T cell Leukemia patients.
- Evaluation of post-transfusion hepatitis G in transfusion dependent patients of Kerman province of Iran.

- A survey on the capabilities of the scientific Journal of Rafsanjan University of Medical Sciences' methodologist referees on detection of the flaws of a hypothetical manuscript.
- One year incidence rate of Low-Birth-Weight (LBW) among neonates born in Rafsanjan (2009-2010).
- The survey of encouraging factors to attendance in congregation prayer from the viewpoint of students and employees of Rafsanjan Nursing, Midwifery & Paramedic faculty in 1389.
- Determining the polymorphisms in family genes in patients with chronic and /aggressive periodontitis.
- The effect of Low Power Laser in treatment of the plantar Fasciitis of patients referring to Fattemeh physiotherapy clinic.
- Prevalence of addiction and memory defects in multiple sclerotic patients at Kerman province (2010).
- The evaluation of Medical Faculty of Rafsanjan University of Medical Sciences and Health Services based on the CIPP model.
- Effect of the aqueous extract of *Achillea millefolium* on severity, leukocyte infiltration, myelination and serum level of inflammatory and anti-inflammatory cytokines after induction of Experimental autoimmune encephalomyelitis (EAE) model of multiple sclerosis in C57BL/6 male mice.
- Evaluation of the effects of Semelil (ANGIPARSTM) on Biochemical and hematological parameters involved in wound healing and angiogenesis of diabetic rats.
- A Survey on knowledge, attitude and practice of Rafsanjan general doctor towards Health System Research and proposing a plan to improve the function of this system within the Rafsanjan University of Medical Sciences.
- Evaluation of Mycobacterium tuberculosis infection in Afghanistan, Rafsanjan city by PCR method.
- The effect of low power laser in treatment of the lateral epicondylitis of elbow.
- Evaluation of the difference between human leukocyte antigens (HLA) in patients with type 2 diabetes and non-diabetic adults in Rafsanjan.
